

Camp X 2019
PrintMaking Fun!
Permission Slip

Protocol and Safety in the art studio

- **Behave respectfully in the studio.** “Goofing off” can be dangerous and will never produce “Good” art.

- **Proper use of tools:** X-acto blades, scissors, T-squares and other equipment will be used during this camp. Campers will learn how to **properly use** these items. All safety precautions will be followed or you will sit out from the project. The safety of all in the room depends on this statement. Campers could be sent home if procedures are not followed. Safety for all comes first!

- **Campers will sign out a cutter for use.**
 - **You are responsible for turning in your cutter at the end of its use.**
 - **You may NOT SHARE the cutter. Each camper must use his or her own tool.**
 - **Once the cutter is returned you will be crossed off the list and receive an exit slip.**
 - **NO ONE LEAVES THE STUDIO UNTIL ALL LINOLEUM TOOLS ARE RETURNED!**

I understand my child’s responsibility for linoleum cutter tool use and how it will be taught. I sign here releasing him/her to use the tool for class purposes after instructed on its safety.
